

ELIEZER JAMES

BLOCKCHAIN DEVELOPER AND SECURITY RESEARCHER

Address: Lagos, Nigeria | [Linkedin](#) | [Portfolio](#) | [Email](#) | [Phone](#)

EDUCATION

Nnamdi Azikiwe University (NAU)

Anambra, Nigeria

Bachelor of engineering (B.eng) - Electrical Engineering

November 2018 - November 2023

SKILL SUMMARY

- **Languages:** Solidity, Javascript, Go language, C++.
- **Frameworks:** Hardhat, Foundry.
- **Platforms:** EVM chains (Ethereum, Polygon, Optimism, Arbitrum, Base. etc).
- **Soft skills:** Project managment, security research, technical writing, Defi-analyst.
- **Operating system:** Linux and Windows.

RELEVANT SKILL SETS AND EXPERTISE

- Smart contract development.
- Security research, audits, and gas optimization.
- DeFi application and protocol development.
- NFTs.
- Web3 integrations.
- Blockchain Interoperability and bridge contracts development

ACHIEVMENTS AND PROJECTS

- Developed and deployed a defi platform that facilitated secure lending and borrowing, achieving a user base of 1 million within the first year.
- Conducted comprehensive audits of smart contracts for multiple high-profile blockchain projects, increasing security and efficiency by 70%.
- Led the development and launch of an NFT marketplace, with over \$1 million in transactions within the first quarter of the year of launch.

WORK EXPERIENCE

Blockchain developer

Streal network June 2023 - July 2024.

- Developed a collateral backed stable coin protocol that generated over \$3m in 8 months.
- Developed a Decentralized Voting Sysytem that increased the DAO growth by 150%.

Blockchain developer

Aqua Protocol 2021-2022.

- Developed a lending and borrowing protocol that increased the user base up to 200%.
- Spearheaded the launch of a successful NFT market place with over 250k user base and more than \$7m in revenue.
- Smart contract audit of stable coin protocol with 70% increased efficiency

LANGUAGES

- English
- Chinese

Experienced blockchain developer and security researcher with over 3 years of expertise in various levels of EVM smart contract development and auditing, DeFi apps development and protocols. Proven track record of creating responsive blockchain applications. Seeking a dynamic and challenging role in blockchain development to leverage my skills and contribute to the success of the organization.
